Civil / Agricultural Engineer – Licensed PE

Anez Consulting, Inc. Willmar, Minnesota

Salary: $90,000–$115,000 annually, based on experience

Full-Time Hybrid Flexibility Minimum 3 Days In-Office

Help Shape the Future of Agriculture!

Anez Consulting, Inc. is seeking an experienced, Minnesota-licensed Professional Engineer to join our growing agricultural and environmental consulting team.
We're looking for a motivated engineer who enjoys solving problems, leading projects, and working directly with clients. **Agricultural engineering experience is preferred but not required.** We welcome experienced civil engineers interested in applying their expertise to agriculture.

Key Responsibilities

Lead engineering design for livestock facilities, manure storage systems, site development, and agricultural infrastructure.

- Prepare and approve engineering plans, specifications, calculations, and technical reports.
- Serve as Engineer of Record and oversee projects from design through construction.
- Coordinate with clients, contractors, and regulatory agencies.
- Provide technical leadership and mentorship to our consulting team.
- Obtain NRCS Technical Service Provider (TSP) certification with company support.

Qualifications

- **Current Minnesota Professional Engineer (PE) license required.**
- Bachelor's degree in Civil or Agricultural Engineering.
- Experience in civil engineering, site development, drainage, stormwater management, or agricultural engineering.
- Strong project management, communication, teamwork, and problem-solving skills.
- Interest in agriculture, environmental stewardship, and professional growth.

Why Join Anez Consulting?

- **Competitive salary: $90,000–$115,000**
- Flexible hybrid schedule with at least three days per week in our Willmar office.
- Employer-supported health insurance, retirement benefits, and paid time off.
- Meaningful projects with opportunities for professional growth and leadership.
- Support for NRCS TSP certification and continued professional development.
- A collaborative, family-oriented workplace where your expertise makes a difference.
  Bring your engineering expertise. We'll help you grow your agricultural knowledge.
